History of Coffee in Thailand

WHAT IS THAILAND'S COFFEE HISTORY?

Coffee was first introduced to Thailand in the early 1900's and was quickly adapted in local coffee shops to the local's drinking preferences. Most Thai people enjoy to drink the dark, iced version of coffee mixed with sweet condensed milk made with Robusta Coffee. This traditional Thai style of coffee known as 'Cafe Boran' or 'Antique Coffee' is frequently found sold by street vendors and is extremely satisfying to drink in Thailand's hot, tropical climate.

Nowadays, in addition to Robusta Coffee, Arabica Coffee production continues to grow and improve in quality due to the demand for a better quality of premium coffee domestically within Thailand. At Elefin, since our opening 10 years ago we have been committed to serving the highest quality Arabica Coffee grown in Thailand.
